

REMARKS

Applicant has amended Claim 1 to include the limitation of Claim 8 relating to a solvent which is a combination of a fluorinated solvent and a non-fluorinated solvent. Accordingly, since Claim 1 as amended is in condition for allowance, all those claims which are dependent upon Claim 1 should also be allowable. In telephone conversation between Applicants' attorney and the Examiner on April 18, 2005, the Examiner agreed. Applicants' have canceled those claims that are not dependent directly or indirectly upon Claim 1.

In the amendment of the claims, Applicant has attempted to distinguish the invention over the prior art and the cited paragraphs of 35 U.S.C. § 112. The references cited clearly do not anticipate or render obvious the many dependent claims found in the application with the species defined therein. In view of the arguments and modifications to the claims, allowance of this case is warranted. Such favorable action is respectfully solicited. If additional changes to the claims are necessary, the Examiner is requested to contact Applicant's attorney by telephone to discuss same.

Respectfully Submitted,
